

What's the TRUTH about Aging Skin?

Normal Light

Before

UV Light

Before

UV Light

After

To reveal the sun's true damage, Shaklee Corporation took these photos in 2004 with normal and UV light.

After the subject used Enfuselle skin care system for three months, the sun's damaging effects and visible sunspots were significantly minimized.

The anti-aging industry is HUGE. Media advertising promotes a more youthful appearance. Doctors and cosmetologists promise to remove unwanted wrinkles—by **EXTREME** measures:

- Cosmetic Surgery
- Laser Treatment
- Collagen – liquid made from connective tissue from cows or pigs injected under the skin
- Microdermabrasion – “sandpaper-like” treatment
- Botox – diluted food poisoning injected into the skin which paralyzes muscles
- Peels – intensive exfoliation treatment which the FDA warns against due to the increased risk of skin cancer

EXTREME Cosmetic Treatments cannot halt aging!
The Skin is LIVING TISSUE!
Feed, nourish and protect it daily.

Aging Skin Meets its Match with Enfuselle Anti-Aging Program
Enfuselle will visibly reduce fine lines and deep wrinkles.
Immediate results and the research to prove it!

Choose Enfuselle

Shaklee's **SIMPLE FOUR STEP** Anti-Aging Program

- Cleanser
- Toner
- A.M. Repair
- P.M. Repair

Will produce the following results:

- **BLOCK EVERY FACTOR** that causes accelerated aging of the skin
- **REVERSE or RETARD** the visible signs of aging
- **NOURISH** the skin by “infusing vitamins” through the protective layers
- **FEED** skin internally with proven anti-aging NUTRITION
