## The New Shaklee Member Referral Program

### Who Can Participate:

Anyone with the title of "Member" can earn referral credits.

A product credit will be earned only if the newly referred customer is not currently a Shaklee Family Member – they must be new to Shaklee.

### How to Participate:

Member logs into shaklee.com, and visits the Member Referral Center, which is located on their home page (only visible to Members). To see the steps a Member will take to enter the Member Referral Center and send a message.

In the Member Referral Center, Member sends a message (with a specially coded link) to a friend via Facebook® or Twitter, or by e-mail.

A default message is provided, but we encourage Members to customize the message to fit the needs of their recipient, including a suggestion about products to try.

### Shaklee Member Referral Program Rules and Details

**(In your Shaklee site please look up all the rules. It is a wonderful program for members only)!**

Have you ever had a Member share how much they love Shaklee products with a friend and then refer them to you? How did you thank them for that?

Well now there's a new corporate program that thanks your members *for you*, and encourages them to refer more people. It's called the Shaklee Member Referral Program, and it's this simple:

### How it Works

Your member sends a special invitation message (with a specially coded link) from the

MyShaklee.com site via Facebook, Twitter or email to a friend.

Friend uses the link to visit a special site where they purchase products, and they automatically get a one-time 15% discount.

If the order totals \$25 Member Price (MP) or more (excluding taxes, shipping and handling), the referring member gets a \$25 credit they can apply to their next order of Shaklee products.

That's it! Your Members can do this as many times as they like, up to 100 referrals per day, and Shaklee does all of the tracking so that you get

credit for all purchases and the contact information of the new customer so that you can follow up and discuss Membership in Shaklee Savings about with this program, and everybody benefits – your Member, your new customer, and your business!

### Share Health

Combine this program with Free Membership with Shaklee Vitalizer™. When your new Member gets a Free Membership with Vitalizer, and then refers 3 friends who do the same, they receive enough product credits to nearly cover the cost of their next purchase Of Vitalizer!

## Omega-3 oils slash prostate cancer risk

The omega-3 fatty acids found in oily fish could slash the risk of developing prostate cancer almost in half. The fish oil also reversed the deadly effect of a gene known to increase the risk of developing an aggressive inherited form of prostate cancer.

Researchers at the University of California in San Francisco compared the diets of 466 men diagnosed with prostate cancer and 478 healthy men. Those who ate oily fish such as salmon, herring and mackerel, one to three times a month had a 36 percent reduced risk of developing prostate cancer. Those who ate the fish more than once a week slashed their risk by 57 percent. **(The problems with fish are the toxins that are**

**found in them. We are warned against eating fish very often. Farm Grown fish are the worst)** Scientists found similar results for eating shellfish, which also contains omega-3 oils.

The omega-3 oils also influenced a variant of the COX-2 gene, an inherited gene that encourages inflammation and is linked to a 500 percent increased risk for an aggressive form of prostate cancer. Eating a diet rich in oily fish wiped out the negative effects of the gene and eliminated the increased risk.

"The COX-2 increased risk of disease was essentially reversed by

increasing omega-3 fatty acid intake by half a gram per day," said st John Witte, Ph.D. professor of epidemiology and biostatistics at the University of California at San Francisco. "If yo think of the overall inverse association in terms of fish, where omega-3 fatty acids are commonly derived, the strongest effect was seen from eating dark fish such as salmon one or more times per week."

Scientists believe that omega-3 oils reduce the risk of prostate cancer by combating inflammation, which influences cancer risk.

**Shaklee's OmegaGuard is a very pure form of Omega-3 fish oils. Vitalizer has Omega 3 fatty acid in one of the supplements-the one that also has Vita-E in it.**

## Are you looking for a part-time job or Know someone looking for a career change?

If you look at all the headlines in the papers today or watch the news everyone is concerned with the economy.

With all the hard times out there I was able to walk away from my 28 year career this past summer and solely work our Shaklee business. This was my choice not the companies.

I got tired of giving my workers .08 and .12 cent

raises for the great job they were doing. While the CEO received an \$18,000,000 dollar bonus for what he did.

When you work for yourself it is rewarding to help restore people's health, or maybe it is just saving the planet and showing people how they can save money by using Shaklee's bio-degradable cleaners. Whatever the case, when you succeed, your income

increases. You are not working for someone who you have never seen that gets all the rewards.

Fast track is available to everyone until the end of November. This gives you the opportunity to earn over \$100,000 in your first 15 months in Shaklee. How hard do you want to work to get there?

## Allergies and Sinus Sufferers

**Eddie was four years old when his parents, Lori and Lyle A. started noticing his swollen eyes, inability to get any air flow through this nostrils, sinus infections and asthma allergies.** It was the beginning of his roller coaster ride with sinusitis. After five years of allergy shots, his doctors concluded the shots were not doing any good. Eddie was taken to Children's Hospital and given a CAT scan which determined he had "ETHMOID DISEASE," (The Ethmoid bone is a sieve-like bone between the nose and sinus close to the brain.) He had polyps in his sinus and a deviated septum. At ten years old Eddie had surgery which rerouted his sinus, removed the polyps and corrected his septum. He could breathe again for three months. **Then it started all over again. The polyps were back. They tried "vacuuming" his sinus. Nothing.** He got Prednisone shots INTO his nose. Nothing. He never got over the infections. He has been using antibiotics "forever" according to Lori. Sometimes everyday, for long periods of time. Now at 13 years old, Eddie has lived most of his life with his immune system fighting, fighting, fighting.

Lori and Kyle completed a health questionnaire for Eddie that pinpoints where the nutritional deficiencies lie. There were several areas that jumped off the page at them and that is where they started. After several days,

Lori decided to be extremely aggressive with Eddie's vitamin program. IT'S WORKING!!!

**After four weeks, we have all been amazed at what is happening!** Eddie, after not being able to get any air through his nose for nine years, is breathing again! He was getting another sinus infection when he began his Shaklee supplement program. Lori decided NOT to go the antibiotic route and just see what happened while taking Shaklee garlic. **Normally he used two rounds of antibiotics and it lasted a good two to three weeks. Lori is happy to report Eddie was well in one week and his whole demeanor has changed.** He insists on taking his garlic to school. He has more energy and is more enthusiastic. Eddie swims on Mill Creek Swim Team six days a week, completing 15 -20 miles a week. As one of Eddie's coaches, I have noticed a major difference in his workouts. **He is turning into a top notch athlete with a lot of focus.**

**Vita Lea** Covers the basics

**Carotomax** Mucus membrane healer

**Garlic Bug Killer** started with 8/day now 6

**B Complex** Fights fatigue, energy booster

**Vitamin C** Nature's antibiotic--antihistamine, fights infection.

**Osteomatrix** Builds and relaxes muscles, stabilizes nervous system

**Opti-flora** Two servings per day-to reestablish the healthy flora that long term antibiotics destroyed

**Nutriferon** to help keep the immune system balanced

**Protein- Energizing Soy** To rebuild immune system cells that had broken down

~~~~~  
**Linda had SINUS problems most of her life.** Nighttime was a particularly miserable time for her as she couldn't breathe and had to prop herself up on pillows and use nasal sprays and inhalers. Her doctor told her the problem was a deviated septum's she had it fixed. She had surgery on her nose after which there was absolutely no difference! Yet, Linda now sleeps comfortably and with no congestion. **All she changed was her laundry detergent.** She changed from the toxic grocery store brands to one that was environmentally sensitive. --**Shaklee Laundry Care Products** - It made all the difference in the world for her. Interestingly enough, her children's allergies improved, too!
